Nora Chellew: *Water Index*
August 23rd - September 8th

Gym is pleased to present *Water Index*, Nora Chellew's first solo exhibition in New York. *Water Index* presents a timeline, centered around ideas of bathing. All works relate to the bath and/or being in water, and are categorized through a linear index. The index follows, in order, "Past, Biblical," "Present, Body Politic," "Future, Sapiens," with "Reflection, Hypnosis" as an overarching presence.

Nora Chellew is an artist and native New Yorker. Her work combines poetry and informational text with three-dimensional structures. She has shown work in Baltimore, MD; Philadelphia, PA; and Athens, Greece. Nora currently teaches art to NYC kids, and will begin this fall as Production Assistant in MoMA's Performance and Live Programs department.

Gymnasium is located on South 5th Street between Hewes and Union. It is communally-driven, and presents exhibitions, performances, readings, and workshops, with a focus on trials and projects.
